

Invitation to join the "Turkic system of author authority"

Dear colleague!

The "Turkic System of Author Authority" was created by the International Academy of Systemology (IAS) to strengthen and support the authority of Turkic researchers, organizers and popularizers of science, as well as creative people working in the science fiction genre.

The "Turkic Author Authority System" may include any scientific work of any genre, published or deposited on any media, or otherwise publicly displayed or disclosed by any author. The primary condition for calculating an author's rating is unrestricted access to their work.

Any scholarly work of any genre by any author-whether published, deposited on any storage medium, or otherwise publicly displayed or made public-may be included in the "Turkic Author Authority System." A fundamental requirement for calculating an author's rating is unrestricted access to the work.

To join the "Turkic Author Authority System," an author or publication must send an application (in free form) to: usakadsek@gmail.com

October 7, 2026

Sincerely,
President of IAS

Aliev G.M.
