

Conference "Linguistic problems of inter-Turkic communication"

24-25.09.2022

Resolution:

1. Given the relevance of the issues raised at the conference and the novelty of the reported results, recognize the conference as a success.

2. Based on the topicality of the tasks facing the Turkic community, to include a linguistic conference in the program of the II International Systemological Congress of Turkologists.

3. In support of the thesis of Aman Dzhumakulov (Ashgabat) on the exceptional importance of oral communication (colloquial speech), further provide for the possibility of including audio files in the conference program as abstracts, accompanied by the use of the common Turkic writing system based on the Latin alphabet in addition to the state and literary languages.
